

## Vion™ Mesh High Back Multi-Tilter (6321-3)

The Vion™ family is not only design savvy, but is adaptable to any office or meeting room environment. Two back heights and five mechanisms are offered along with mesh and upholstered back varieties. With the inclusion of drafting stools, guest seating, counter height and bar height stools, as well as heavy duty models, the Vion family becomes an excellent choice for the modern office.

Dimensions: W25.5 x D24 x H41 IN.

---

## ergonomic features:

### Tension Adjustment

Increase or decrease to match body weight. Allows you to rock comfortably, without heavy pushing, reducing muscle fatigue.

### Chair Tilt Lock

Lock the tilt movement in position(s) to accommodate your working posture. Allows you to lock your chair in a comfortable and supportive position. (can be either single position or infinite style).

### Seat Height

Raise or lower to allow your feet to rest flat on the floor. Avoids pressure under your thighs, easing blood flow.

### Seat Depth

Change the depth of the seat to accommodate the length of your thighs. Keeps your back in contact with the backrest while avoiding pressure behind your knees.

### Seat Angle Adjustment

**Forward and/or rearward.** Allows chair to tilt forward and/or rearward changing the angle of your thighs in relation to the floor. Helps reduce disc pressure during forward leaning tasks.

### Back Angle

Adjust to change the angle of your torso in relation to your thighs. Helps reduce disc pressure and relaxes your back muscles.

### **Arm Height**

Raise or lower to support your forearms. Reduces muscular effort in neck and shoulders, minimizing risk of pain.

### **Waterfall Seat Edge**

Reduces pressure at the back of the knee, contributing to good blood flow.

### **Properly Contoured Cushions**

Support the body effectively, allowing you to sit longer without discomfort.

### **Width Adjustable Arms**

Allows outward movement of armrests to match shoulder breadth. Ensures armrests properly support forearms, reducing muscular effort in neck and shoulders.

### **Center-Tilt Movement**

Chair tilts from a pivot point under the center of the seat allowing you to rock. When your feet are well supported, blood flow is enhanced.

### **Soft Descent Pneumatic Lift**

Gently and gradually lowering the seat helps you easily select proper seat height without causing a jerking motion.
